

# AIM Assessment for Dynamics on-premises customers

AIM for the future with Microsoft &  
Sopra Steria - 8 hours assessment  
moving to the cloud

# AIM Assessment for Dynamics on-premises

Confidently move to the cloud with an ERP migration with help from Sopra Steria, to unlock the agility needed to lead the way in today's rapidly evolving marketplace with Dynamics 365.

**Start your journey to the cloud with a baseline technical and functional review of your current on-premises solution, along with specific recommendations and considerations.**

As an ERP migration and implementation expert, Sopra Steria can help you deploy Dynamics 365 to optimize finance and supply chains to create a connected enterprise by infusing AI, automation, and analytics into every enterprise resource planning (ERP) process.

The AIM Assessment is a part of Microsoft's AIM (Accelerate, Innovate, Move) campaign and offer. It provides qualified on-premises business applications customers with a tailored path to the cloud. The assessment includes access to a dedicated team of migration advisors, expert business value and technology assessments, investment offers, tools, and migration support.

The AIM Assessment includes a technical and functional review of the current on-premises solution with the goal of building a tailored migration plan. Sopra Steria delivers an assessment report that includes a capability overview, dependencies, recommendations, and next steps.

The AIM Assessment will help to understand the benefits of moving from their legacy system to the cloud, tying this transition to current and future business objectives and Dynamics 365 cloud functionality.

## Deliverables & Timeline

The final report documents insights, analysis, and recommendations for moving to Dynamics 365 cloud.

- Business objectives overview
- ISV overview with recommendations
- Technical dependencies and recommendations
- Recommendations on ideal upgrade approach
- Migration next steps
- Estimated timeline for the assessment is 8 hours.

## Objectives

- Understanding the benefits of moving from an older, on-premises solution to the cloud
- Identify business objectives and tie those into the functionality of Dynamics 365 cloud
- Learn how to optimize the migration process with a focus on reducing effort and costs
